WHAT WE OFFER

We offer end-to-end product development to retail buyers, designers and luxury spaces through our distributed network of vetted, ethical and trained maker communities around India.

EXPLORE

Explore new crafts, design trends and identify a good product-market fit.

DESIGN

Design concepts, conceptualise and plan new products and collections. You can also select from our design directory/retail line.

CONNECT

Identify the right set of maker partners to deliver products and transact through us on a secure platform.

CREATE

Coordinate and manage sampling, production, quality checks and returns.

FINISH

Post-production including stitching, finishing, packaging and shipping.

PROCESS

OUR DEVELOPMENT PROCESS

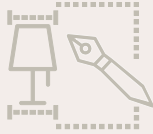

WORK WITH US

RETAILERS

Explore new crafts and co-create your collections with us. Pick from our design directory or work with our in-house designers to create a customized collection. We identify the best materials/makers for the job and manage end-to-end production. Designed to deliver time-efficient and high-quality results for international retailers or small brand houses that have limited resources to invest in new market exploration, design, sampling and on-ground production.

DESIGNERS

Transform your concepts and vision into reality without all the hassle of 'getting it done'. We work with architects, designers or luxury design studios to co-create products – drawing from their inspiration and applying limitations and boundaries of the craft – and identify the best partners suited to deliver products within the timeframe and budget.

SPACES

Take your pick from our directory of products across categories – lighting, décor, textiles and wall paneling – and transform your space with handcrafted luxury. Perfect for high-end hotels, co-working spaces, corporate events and weddings.

OUR DESIGN DIRECTORY

Co-create your collection with us or choose from our wide range of patterns across textiles. We work with exceptional designers from around the world to reinterpret and reinvent heritage tradition for the modern home.

In addition to our in-house design team, we are also able to access material experts. e.g., ceramic, brass, textile for special projects.
